**WHOLESALE  
PRICE LIST  
SPRING  
1942**

Miss Newman H. S. D. H. Library

Telephone: Princeton 1776

February, 1942.

## TO THE TRADE

Gentlemen:

This wholesale price list contains only varieties and sizes which we have in quantity and which are most commonly used by the wholesale trade.

In the past we have also published a complete descriptive retail catalogue that was distributed to our wholesale customers as a guide in making retail sales. Because of a shortage of materials and help and the constantly changing price economy, we will not publish this list again this year. There are still a few Spring 1941 copies left and at your request we will gladly send you a copy for its value as a plant handbook, but with the reservation that prices listed are inoperative.

We specialize in material wanted for both private and public landscape work. Our inventory includes not only specimen stock but large quantities of material for massing and screening. We suggest that you send us complete lists on which we are prepared to quote attractive prices because of our comprehensive inventory and large scale production.

## Conditions of Sale

### PRICES, ETC.

The prices named in this list cancel all previous lists. They are based on current market conditions and are subject of change without notice.

### Terms:

#### **PRICES: F.O.B. NURSERY AT KINGSTON, N. J.**

To those with an established record for prompt payment or with satisfactory references, we are glad to extend our regular terms of thirty days from date of invoice.

**2% DISCOUNT** will be allowed for payment in ten days from date of invoice.

**5% DISCOUNT** will be allowed for **CASH IN FULL** with the order, providing digging or delivery is scheduled for less than 30 days from date of order.

Orders for **shipment C.O.D.** must be accompanied by a remittance for one-third of the amount to insure acceptance. These are our only terms and no salesman or representative is authorized to alter them in any way unless confirmed from the office in writing.

## 25% ADDITIONAL CHARGE For SPECIAL SELECTION and TAGGING in the Nursery

Reduction in personnel makes it imperative to make a charge of 25 per cent additional on our regular listed price for the special selection and marking in the nursery of extra heavy or specimen plants. We invite inspection of our material and on quantity orders will, if requested, mark an average sample to assist our diggers in the selection of the grade wanted.

### CLAIMS

All sales are made with the understanding that we shall not be liable in event of crop loss, or of damage from other causes over which we have no control.

We will gladly correct any errors, but **we cannot entertain any claims that are not made within ten days after receipt of the stock** or are made after the stock has once been accepted. Claims should be made promptly in writing on receipt of stock.

Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage, or delay in transit.

All orders booked are based on the distinct understanding that the purchaser agrees to the condition of sales as stated above.

### SCHEDULE OF B&B CHARGES

The following charges are made to cover additional cost of balling and burlapping deciduous trees and shrubs that are not listed B&B. The size of ball for most stock is in accordance with the A.A.N. "Horticultural Standards" recommendations.

These charges are based on a *carefully dug*, solid ball of earth, *laced* with rope or wire, and handled according to the best nursery practice.

### TREES, SHRUBS AND SMALL TREES

60 in. diam. ....	40.00	37.50	—

The above charges apply only F.O.B. NURSERY. We will be glad to estimate a delivered price based on the terms of delivery on page 3.

Ball depth will normally be not less than 60% of the diameter, and in all cases is adjusted so as to encompass a maximum of the fibrous root system of the plant.

Platforms are in addition to above prices, the cost of platforms to be rebated, providing customers return them at their own expense.

Bales 35c and 50c to \$3.50, depending on size.

Packing charges are at cost and represent the actual cost of the material used in the operation. No charge will be made for loading bulk truck or car lots.

## Truck Delivery Service—Charges

The following percentage charges are based on the estimated cost for FULL TRUCKLOADS on one order or in combination with other orders to make up full loads to one general area. These rates apply only to bare root plants and for small B&B plants. In other cases a charge covering actual cost will have to be determined.

In order to conserve tires we recommend rail shipment whenever possible, and reserve the right to change these terms without notice.

### "CARLOADS" AND FREIGHT SHIPMENT

With our own railroad siding connecting with the main line of the Pennsylvania Railroad and a daily pickup service on L.C.L. and express shipments, we are in a position to expedite shipment to you without delay. Consult your local agent for rates to Monmouth Junction, N. J.

### GUARANTEE OF GENUINENESS:

We will send out healthy, thrifty stock, true to name. If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace free of charge such stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said stock.

Packing Shed and Railroad Siding provide direct facilities for freight shipment.

## Notes in Explanation of Catalogue

The figures following each variety indicate in feet the approximate height of that plant in maturity. Ample allowance has been made for the many physical factors that tend to modify the growth of plants in cultivation.

The botanical and common names are taken from "Standardized Plant Names," which is the accepted authority on plant nomenclature in the horticultural industry.

Our standard of grading all plants is based on a schedule which has been adopted by the American Association of Nurserymen.

## SPECIAL OFFER — ASSORTED SHRUBS

Our selection includes all desirable varieties for landscape plantings.

Many of our customers have asked us for assorted shrubs where the varieties do not have to be specified. We are, therefore, offering three groups of shrubs this season. The varieties used will naturally be made up of items that we have in good supply at the time.

	100 or more	1000 or more
<b>GROUP A—Shrubs, 2 yr.</b>	.14	.12
Average 2 ft. or more, including all good ornamental varieties of Deutzia, Spirea, Callicarpa Philadelphus and others.		
<b>GROUP B—Shrubs, 3 yr.</b>	.20	.16
Average 3 ft. or more, including all good ornamental varieties same as above.		
<b>GROUP C—Special, 3 and 4 yr. Shrubs</b>	.25	.20
Average 3 ft. or more, including all good ornamental varieties as above with the addition of some of the better, higher priced varieties of Viburnum, etc.		

We may also from time to time have special offers of assorted SHADE TREES, SMALL EVERGREENS, or other items. Consult us first and take advantage of the savings involved.

## FRUIT TREES and Berry Plants

We have continued to grow a selected list of the better varieties of apples and the newer improved varieties of peach trees. This year we have added a special selection of hybrid blueberries that have proven of particular worth for their large fruit production and are equally desirable for the home garden as an ornamental.

### APPLE TREES

Listed according to their season of ripening.

#### YELLOW TRANSPARENT

Very early, medium sized yellow apple, exceptionally good for cooking.

#### STARR

A large, green apple which ripens after the Transparent. Noted for its exceptional size and long picking period.

#### PETREL

A high quality, mid-summer, eating and cooking apple.

#### WEALTHY

Late summer apple of good quality and color.

#### GRIMES GOLDEN

High quality, medium sized, yellow-fleshed with a distinct flavor. Probably the best all round mid-season apple.

#### McINTOSH

Large sized early fall apple, noted as an eating apple of exceptional flavor and aroma. The trees are strong and vigorous, cropping annually.

#### CORTLAND

An improved McIntosh type ripening ten days later than McIntosh. Color is brighter with stripes. Tree is vigorous and productive.

#### YELLOW DELICIOUS

A widely advertised yellow apple. In N. J. it is a late Fall and early Winter, large apple, high quality. Tree is vigorous grower.

#### ROME BEAUTY

Very large, late winter apple, noted for its good keeping qualities and used principally as a cooking apple.

#### RED ROME

A red sport of the Rome, a trifle smaller than the Rome Beauty, but it resembles it in other characteristics.

## How to Reach Princeton by Auto or Train

We are located midway between New York and Philadelphia. Both the Lincoln Highway and the new Super-Highway (Route 26) pass our nurseries.

The office of Princeton Nurseries is located on Lake Road in the township of Kingston, New Jersey.

The nearest railroad stations are at Princeton and Princeton Junction, on the main line of the Pennsylvania Railroad. Phone Princeton 1776 or 1777 and we will be glad to come and meet you at either place.

The New York-Washington planes pass over our nursery hourly. When travelling by airplane, watch out for the interesting block arrangement from the air.

We would call your attention to the fact that we have one of the largest nurseries in the country with over 1000 acres of nursery stock. We are growing between 1100-1200 varieties of hardy woody ornamentals.

A cordial invitation is hereby given to visit our nursery at any time.
